**RE: Notification of Construction
Lilley Road at Hanford Intersection Improvements**

Dear Property Owner:

This letter is to inform you that construction will begin on Monday, August 11, 2008. Lilley at Hanford will become a 4 way stop as traffic control devices are to be installed. Back-ups are anticipated during morning and evening peak hours during construction. Please be advised to seek alternate routes to avoid these delays. This is necessary to expedite the project. We appreciate your patience and understanding.

The project involves adding dedicated right turn lanes for northbound and southbound Lilley Road, widening a small portion at the southwest corner of Hanford for the turning movement onto southbound Lilley Road and installing traffic signals that include decorative green mast arms with illuminated street signs. Pedestrians will be able to cross Lilley Road with the intersection improvements. Construction is anticipated to be completed by late September.

The blue Post Office Box will be removed at the northwest corner at Hanford along with two (2) street lights. The contractor will begin tree removal on the east side of Lilley Road, south of Hanford. This will allow for the storm sewer installation and relocation of a fire hydrant.

The Township is working in cooperation with Wayne County to provide intersection improvements for Lilley at Hanford Road as part of our Intersection Action Committee (IAC) Program for 2008. This program will improve 34 intersections within Canton Township over a 10-15 year period. We are currently in our fourth year of the program.

I may be reached at (734) 394-5156 to answer any questions or concerns you may have during the construction project. You may also contact Eddie Bizek, Wayne County Project Manager at (734) 595-6504, ext. 2064.

Sincerely,

PUBLIC WORKS
